# iBoogie By Cate Colbert

Homecoming week kicked off traditionally on Monday with Spirit Week. Seniors, of course, had their separate spirit days for their class. Float building took place with the theme "Disney Movies," and at the parade Friday afternoon, the freshman class was awarded first place with the float theme of Hansel and Gretel. All of our fall sports teams did an excellent job during the games homecoming week! Homecoming queen candidates were: Emily Spears and her escort Lincoln Lyles, Lauren Scharch and her escort Anthony Nicholson, Michelle Ortiz and her escort Casey Chelf, and Homecoming queen was Katie Dreher and her escort Jacob Vrudney.

## iDANCE

"I Don't Wanna Miss A Thing"

# iLive

The high school is full of students in different levels of their lives, achieving various accomplishments. The freshmen entered unfamiliar in a new environment, met new people, and we welcomed by the students in other classes. Students experienced such a big change from middle school to high school. Off campus lunches, more students, more opportunities, more classes, more freedom. Sophomores are familiarizing themselves and continuing to take new things in day to day. Students now realize they aren't the lowest in the rankings, but still aren't up to standards with the upperclassmen. The juniors are raising money for their class, and also taking harder classes than ever. Working hard and taking the ACTs as they prepare to enter the twelve grade. The seniors are wrapping up their final year, filling out scholarships and applications, taking a deep breath as they step out into their future, the real world. They have achieved.

I love Steve with every fiber of my being and Morgan is a beautiful butterfly just hatching out of her cocoon.  
-Greg Gentile

Frankie, you are a stud and I Love you!  
-Michael DeBuano

My brother and I are always there for each other, no matter what happens.  
-Kelsey Moore

My sister is a very nice person, always treats me well and gives me lunch money whenever I need it. I love you Shell.  
-Quentin Ortiz

# High School Brings Families Closer Together

By Michelle Ortiz

Mean big brothers that pick on their younger sibling, older sisters who always think they know what's best, annoying little brothers that just won't leave you alone and little sisters that want to be just like you fill the halls of Salida High School. Though sometimes it seems as if you just want to kill your older or younger siblings, the love for each other still exists even at the worst times. Many brothers and sisters attend high school together and school is a factor that keeps them close together. They can protect and look out for each other easier because they know who is influencing their siblings. School allows siblings to spend more time together. For example, they can play sports together, participate in the same clubs, attend school events together and even take some of the same classes. Being in high school together, in a way, strengthens the bonds between families.

"Gee wiz he sure does give great advice"  
-Josh Hill

"Golly, he took my advice!"  
-Tyler Hill

"My brother has always been there for me and i know he would protect me from all the evils of the school— as well as the world."  
-Sarah Vrudny

# Seniors

Seniors, we made it! The last four years of high school have been filled with, homework, crushes, heartache, accomplishments, and friendships. Struggles, fights, memories and new experiences. We entered four years ago as freshmen, unaware of what our futures would hold, and four years later we follow the path to fulfilling our dreams. We separate on to our different paths with our heads up high, and never forgetting the experiences we had, the knowledge we gained, the teachers that helped shape us, and the friends that will last a lifetime. Congratulations to the class of 2008. We wish you all the best of luck!

Brit-tany Phillips</p> <p>"When i was in girls golf my freshman year, I had a stuffed animal that was named Stich. One of my senior friends loved stich, so I gave it to her and she put it in the front pouch of her golf bag. On picture day for golf, we used her clubs in the picture and you could see Stich peaking out of her pocket. So we made him our mascot." -Karmen Cole</p>	<p>"Times change, people come and go, but the memories are always there-until Alzheimer's hits." # Class of '08 BABY!

# SENIORS

# Juniors

By Kayle Murdock

The junior class accomplished many things this year and overcame many obstacles but getting there was a perilous journey. In the previous year they fundraised for prom and this year put there hard work to good use by decorating for Larimer gym for the seniors final dance. Becoming an upperclassmen also meant taking on harder classes such as chemistry and the beginning of getting college credits. The class of 2009 show that they have what it takes to stick together and accomplish what lies ahead in the future.

Our class has looked forward to high school for several years. Finally the time has come! So far we have upheld our good reputation, remained involved, began getting to know everyone in the school, impressed the staff, and gotten down to business. We have matured and grown for sure. We are a very close class and we are proud to say...we exceed all the standards!

# iTeach

By Michelle Ortiz

Students at Salida High School obviously wouldn't acquire the excellent education they receive if it wasn't for the teachers and staff in the school and the hard work they put in is greatly appreciated. With a couple new additions to the Math and English department, each contribution shows through the improvement in the academic skills of the students. Everything that our teachers do, they do in the best interests of the students, which is something that is very important to the whole educational program.

# Drama/ STUCO

by Lindsey Roberts

## iAct

Acting is one form of entertainment for Salida students. Some prefer to preform on the stage where as others are backstage creating costumes and sets. A total of four plays were put on this year, Frumpled Fairy Tales, Shotgun Wedding, Jury of her Peers, and Robin Hood. The three one acts were performed in the fall, and in the spring, Robin Hood was put on for the community. This year President Bri Wancura, and Vice President Lindsey Roberts directed the play, Frumpled Fairy Tales. Drama Club has presented a number of excellent plays this year, and the non-graduating members are looking forward to next year.

## iGovern

Electing student government can be an interesting process. Student body president Mark Bourget, and Vice President Colin Canterbury, seem willing and up for the job of governing over the student body this 2007-2008 school year. STUCO does many things, such as decorating for dances, preparing for Graduation, and the Juniors plan Prom. This year STUCO has acheived many things, and is sure to continue in the upcoming years.

# iLearn

Salida High School is excellent at achieving its goals when it comes to academics. We learned this year that our students who took the ACTs increased our academic standards for the school. Freshman are realizing that everything counts now, everything is important; even the little things count. Sophomores are continuing to get through the required classes and are also taking many different electives. Juniors are focusing on chemistry and hard classes, ACTs and starting to think about college. Seniors are making sure that they have enough credits to graduate and branch out into college academics. Salida High School is focused.

# iPaint

## Students taking art classes to learn the different techniques.

Spanish. French. Art. These are the classes that release the inner creativity of Salida students. Whether it's learning new techniques in Ms Frazee's art room, learning to salsa dance in Mr. Cassidy's, or visiting the City of Love with Ms. Smith. The students are lost in a world of creativity, and new languages. No matter what year the students are at, learning the basic words to carry on conversations to understanding art and making master pieces. The students are transformed to a different world that is sure to broaden their mind

# Home Ec

## iMake

By Moriah Mendicino

This year the Home Education classes consisted of child development and parenting, relationships, foods I and II as well as clothing i and II and life management. "Our new classes this year were child development and parenting and relationships. In child development it's fun to observe children where in relationships the way girls and guys take to it is also very interesting," quotes Mrs. Tessitore

# P.E.

By Kylie Weeks

## iExercise

Although nothing new in the physical education curriculum took place this year, Mrs. Johnson stated that the key emphasis in P.E this year is fitness training. The girls P.E. class is doing weightlifting, cardiovascular workouts, steparobics, kickboxing and pilates during the week. The kids stay busy playing games or lifting weights. Mr. Gardunio and Mrs. Johnson like to keep the kids busy learning new games and new exercises to keep them healthy and fit.

# Math

## iCalculate

Mr. Bailey was a new edition to the math department this year. He teaches geometry, trig and advanced algebra. Mrs. Reimnitz and Mr. Kim are still teaching their classes. With higher expectations taking place for students year after year, more students are taking advanced classes. Many sophomores will be taking calculus their senior year.

# Science

## iDiscover

The science department was busy this year as many students participated in science classes. Students and teachers planned and studied hard for many tests and projects that took place. Mrs. Delany taught a Human Physiology and Anatomy class this year. It is offered every other year to upper classmen students.

# English

## iWrite

From American classics like the *Crucible* to Shakespearean plays such as *Romeo and Juliet* and *Macbeth*, students are learning ins and outs of classic literature throughout the English courses. Freshman through Juniors are required to take these English classes, while seniors have the option, and many do. "This year the staff was acquainted with a new English teacher Mrs. Lamont. This is her second year teaching and we're all glad she's here."

# History

## iReminisce

.Each year students at Salida High take some sort of social studies class. Such classes include Geography, World History, American History, American Government and Humanities. As we continue to move towards a more technologically advanced society, it is important to learn about the past, and see how exactly it affects our future and our present. Many students are dismayed that Mr. Lambert is retiring this year after \_ years of teaching at High. We'll miss you :)

# Choir

By Michelle Ortiz & Kylie Weeks

## iSing

The choir students do an excellent job working together to harmonize and sound as one. Girls and boys both participate in the choir curriculum. Ms. French works well with each students and helps them develop their singing voices. "We rock it and have a lot of fun in class!" says senior Brianna Wancura. Choir definitely has it's soprano highs and alto lows inside and outside of class.

# Band

## iTune

Band teacher, Ms. Gillespie, has taught another awesome year. With many freshman in both Jazz and Concert band, she has had her hands full. All of the practicing and hard work payed off as many students went to state and performed excellent shows at concerts and games. The band comes together when they play and the effort the students put is what makes the year so accomplishing.

This year advisory was moved to every other Thursday morning, for 35 minutes. Advisory for the seniors means graduation preparation. Seniors decided on their class flower, song, colors, as well as try on their cap and gown with excitement! Junior advisory consists of ACT prep and fulfilling the long task of making prom a hit. Freshmen and Sophomores keep busy in advisory with improving CSAP scores, and keeping their grades up. Advisory is sure to help direct you into your future!

# Business

## iSucceed

A lot has changed since last year in business. Mr. Randy Kapushion is the new teacher for Accounting, Introduction to Business, Marketing, Management, and Business Law. "In between the periods of chaos, panic, and disorder it went very well. The students were great- I believe they're ready to begin running the country now," stated Mr. Kapushion. In Mrs. Stagner's classes they have been preparing to use computers in the business world. Learning things like Web Design, basic typing, and how to use Microsoft Excel Spread Sheets and Microsoft Word Documents. These teachers have done their best to prepare us to succeed in this advancing world.

# iCommunicate

# Speech

Speech class is a class that is only offered to sophomores. The fundamentals taught in speech class are based upon learning better skills for presenting talks or speeches. Student learn to emphasize their voice, have better word usage, and speak in a manner that is both understandable to themselves and to their audience. One accomplishment of the speech class are student self portraits, which is a speech given about themselves and about their background. Other topics of speeches have been Scariest Moment Ever, Fable performances and poetry slams.

# iCure Health

by Katya Myers

One of the most important activities in Mrs. Tessitore's Health class, is working on the program "MyPyramid" which is designed for students to measure their intake of nutrients and how well they balance exercise with their food intake. Towards the end of the semester the Health class works on self esteem, establishing personal goals and looking toward the future. Concentrating on the media is also a lesson that is planned for the class. Students will learn how the media affects everything around them and how to respond to advertising. After they are done with that, the students will learn about relationships, reproduction and child birth.

# Industrial Arts

# ilNvent

By Marisa Shuford

There's only one thing to say about these hard working students... They're not afraid to get down and dirty. All the people that know the Auto Shop boys also know that their hands are never clean. Students from Wood Shop are always found coming out of the class covered and smelling of saw dust. Drafting students have to shake off eraser shavings from constantly perfecting their projects. The hard working and very dedicated students in the industrial arts program have the abilities to take pieces of scrap wood, a blank sheet of paper and a rusty old car and turn each of them into something great.

# Tenderfoot

## iPublish

By Jessie Aragon

"This year with two sophomores as new editors, it's been a really hard challenge. Good thing we like criticism, because we've gotten a lot of it this year, us being new at this. It has been really fun though, I've learned lots of new things. One of my favorite times was working on deadline after school was completely out, the halls were dark, the the boogie man was coming. I have new appreciation for walking in other people's shoes, people should try it more often."

THIS LIKE MY LIFE!

# Yearbook

## iCreate Memories

By Cate Colbert

We've learned so many new things this year, it's been really fun! This year we all decided on an early release date, so students get their books before the end of the year. This is different than the past years, so we're pretty excited about that. Since this is our first year as editors, we've experienced many changes in the way we work from last year. We started out the year rough with only two people in the whole class, but ended up with five senior girls. We all work together really well with the help of Mrs. Larmont. She's amazing.

# iCompete

Kick, pass, stroke, serve, swing, putt, sprint, dribble, pin, jump, throw, cheer, punt, SCORE. Salida High School students are sure to have a blast in the various sports offered to join. No matter the season, there are always sports programs going on in the school. This is the second year our school has offered a swim team. Also recently added to our list of sports is a dance team. They perform on different occasions at different home games. Although not all students play sports, many fans come out each time there is a home game to support our teams.

# Football

## iFought

By Mark Bourget

Much can be said about a football team that was 1-8. Much can be said about a team that has four seniors on it, a handful of hard working sophomores and juniors, and fifteen freshmen, but I have only one thing to say; you cannot measure a team's success by its numerical statistics or its wins or losses. You can measure the amount of success from this team by the heart and effort that was put forth on a day to day, week to week basis. For those of you who watch and know football, you'll know that 165 pounds is not the ideal average weight to have on the offensive and defensive line, but every Friday night our team battled with that, and battled hard. The 2007 Salida Spartan football team fought injury, lack of size and depth, and a handful of other problems, but never once did a player, coach, or even a manager give up on the team.

On many occasions the team displayed their hearts of gold. The best example of this that comes to mind is the opening kick off the Final BV game. After the whistle blew, our starting middle line-backer, Dakota Granzella, took off sprinting down the field and, low and behold, a demon that "couldn't be brought down" stood in his way. Without stopping or even thinking twice, Dakota ran right over the top of him without slowing down and loved every minute of embarrassing his opponent. Despite the final outcome of the game, like many others we lost, our nonstop efforts and our hearts shown through. That's all I have to say about that. Mark Bourget over and out.

# Volleyball

## iSpike Story By Brianna Wancura

From two-a-days to Culver's (a fast food restaurant with amazing frozen custard), this volleyball season was one of the best ever. Though we are in the best division in Colorado, we still achieved a large amount of our goals. With our new head coach Kartina Reimnitz, we worked hard in practice everyday and pushed ourselves to the limit. The eight girls on the team became really close. Martina, Lexi, Casara, Jessie, Sammi, Mariah Kelsey and I laughed so much together during this season. Each team has their ups and downs. Our record was not in any way the greatest, and we all wish we could have made it farther, but we fought hard together. I remember one particular game in Alamosa. We were down two games and going into the third when Sammi and I became really upset with each other. Mostly because of our anger and our team's anger at us for fighting, we all went out on that court and won the next three games to send our opponents home. We had a great time I'm sure we'll never forget! This volleyball team will be imprinted on my heart forever!

# Cheerleading

## iSupport

By Michelle Ortiz

The cheerleaders at Salida have made a giant leap in being appreciated by the student body and fans at the many different sporting events they cheer at. For several years, Salida's cheerleaders have not received so many compliments at every game and tournament as they have now. The hard work these girls put in could be seen though the bruises on their knees and faces from trying to perfect stunts and dance moves at practice. Both seasons produced excellent squads that showed a great deal of spirit which was carried on to the crowds as well.

## Dance Team

This year, Salida high school welcomed a new addition to the athletic department. A dance team was assembled and they performed at different sporting events. Their routines included stunts and jumps as well.

# Boys Golf

By Michelle Ortiz

## iSwing

By Michelle Ortiz

There are many sports that involve teamwork in order to be successful. Though many boys are what make the golf team exist, it is one of the few sports where just one individual can shine in his own spotlight. The excellence of a golfer can be defied by just one stroke. Concentration, dedication and motivation are three main characteristics a golfer must focus on. By using these tools, a good golfer can become great.

# Girls Golf

## iTee

By Kendall Gonzales

The last three years of have been a lot of fun and full of changes. I've enjoyed getting to know the girls and watching them improve their game. This year should be a good year with a few new girls. I would like to see us make it to state as a team! Good luck to the girls this year!

# iRun

Every year high school students push themselves through hard races enduring rain, mud, pain, sweat, tears and joy. Senior Courtney Sovia quoted "I had a really fun season this year. It was probably the funnest and I'm glad I was part of such an excellent team! The coaches were really awesome too."

# Cross Country

# Boys Soccer

By Lindsey Roberts  
and Kayle Murdock

## iKick

The Salida boy's soccer team is one of the most unique teams in the state of Colorado. This team is actually comprised of Spartans, Demons, and Pirates. Although there may be competition in football and basketball between the Spartans and the Demons, the soccer team unites B.V. and Salida. With two such strong forces unified under one name, Salida Spartans, the soccer team is bound to be powerful.

# Girls Soccer

## iScore

A good number of girls came out this year, including many returning players, and many girls who had barely touched a soccer ball. All the girls shared one thing in common...total determination. The girls went out and gave it all they had no matter if it was raining, windy, snowing, or if they were injured. This year is sure to be one to remember as the girls push it to the limit for victory.

# Boys Basketball

## iDunk

Who ever thought beating B.V. 3 times this year would cause such an electric shock among the student basketball fans? Who would've thought that the amount of pumping energy the students brought to the stands would cause such a jolt of force between the players?

This led some of Salida's players to become some kind of heroes to their peers. These were games to remember, games the players lived, and the games the fans witnessed. These were games that the students were talking about the following day, those who were there telling the ones who weren't, all the stories. These are the games that make people proud to be Salida Spartans.

# Girls Basketball

by Lindsey Roberts

## iDribble

Girls basketball... where to begin? I had an amazing season this year. All of the varsity girls became so close. We played great. This was hands down my favorite season of basketball I have ever played. Honestly I never wanted it to end. Every single girl worked hard and played intensely. I couldn't have asked for a better team. Salida will be a strong force in the upcoming years.

## My Greatest Ability

By Josh Valerio

It's about 5:00 a.m. and my alarm goes off. I couldn't sleep all night because I was so excited for the day. I hopped in the shower and then got all my gear together. I headed to the field house so our team could weigh in. While i was in the locker room, I looked around to see the other 103 pounders. I weighed in at 101.4 pounds, i'm under weighth but it's not bad. After wieghing in I went and helped mop and tape the mats, something every underclassmen does before every home meet.

I started warming up in the wrestling room, making sure I was loose and ready to go. I heard my name over the interco, "Valerio, Salida, you're in the hole." I made my way into the gym and out of the wrestling room. I was on mat three, so i jogged over, ready to wrestle. I went to the judges table and checked in. the judge said, "you'll be green." I met the other wrestler at the center of the mat. He was standing on the red line and my adrenaline was pumping as a approached the green line. "Shake hands," said the referee. The whistle blew and I quickly tied up with the other wrestler. At that point, I realized how strong he was and I went for an aggressive take down. I got behind him and was then up by two points.

The match continues with my opponent up 5-2. I'm o nthe bottom, there's ten seconds left, and a huge rush of rage made me pull a reversal and put my opponent on his back. The match was over and the referee raisedmy hand. I was shocked by my victory.

I waited around for my next match. I was a bit nrevous because I had lost to my opponent from Olathe the night before. "You can beat this kid," I said to myself. They called me to mat one and this time the judge said, "you'll be red."

I started out really aggressive. I shoved him trying to intimidate him and it worked at first. I then began wrestling really sloppy. The kid from Olathe started to get the best of me and until the very end he beat me.

I had one more match left and when they called me out on deck and found out a was wrestling a kid from Antonio. I saw what the guy looked like and knew I had a fair chance. The next thing i knew is that I pinned him in the first round.

I had one more match to go and I was against a guy from Buena Vista. I beat him by a few points and the only way I could describe the victory was "sweet." My greatest ability is wrestling and I can thank God for that.

In Salida Spartan Girls Tennis there is no such thing as love. I played tennis throughout my high school career and it was blast. We are really glad that so many underclassman came out this year and hope that it continues. On behalf of the team, we would like to thank Mr. Horton for his time and effort and Mr. Lambert for sticking with us all these years. As you know, he retired this year and the team will not be the same without him. Continue to keep up the good work and good luck.

# iSprint Track

By Marisa Shuford

It was cold season for track this year, but that didn't stop the Salida Spartan Track Stars. They pushed through the cold days of practice and did their best at the meets. "I think our team this year is very well-built. Katie Dreyher and Kelsey Young are probably the strongest aspects of the team. We are losing a lot of players for next year but the team will continue to be great," stated senior Sarah Vrudny. Coaching for the girls this year was Bob Smith, Tim Vrudny and Amber Canterbury. Phil Gardunio and Randy Kapushion were boys track coaches. Although they practice as a whole the coaches this year pushed each and every one of the students to do their best.

## There is No "I" in "Team"

By Tyler Hill

The '08 SHS baseball team had a great uniqueness to it that not many teams will ever experience. We found the perfect balance between having fun and training hard to be the best we could be. We were led by coach George Hill and lived by some of his many motivational quotes. "Did you do all you could to become the very best you could be?" and "Greatness is achieved in inconvenience" were two quotes the team were motivated by throughout the season. Despite the very cold weather, snow, cancelled games and many other obstacles on the road, the team worked hard to overcome every challenge that was thrown in our way. We accomplished this with a team attitude that I will never forget. The men on this team were truly a team in ways that we all stuck together, made each other laugh and gave everything on the field each day. This group was the type of team every athlete should experience, I was one of the lucky few.

# Swimming

Each year the swim team gets bigger and bigger and better and better. After three years the team is doing its best ever and sending more to the state competition. This year more girls came out and it was the biggest team so far. A group of girls stated "Swim team is really fun and I hope the team keeps growing as well as continues to progress and we know we'll excell."
