# Dedication

WE take pleasure in presenting to our subscribers and the general public, this--the 1936-'37 edition of the Chaffee County business directory published by--

McClain's Credit Service,  
207½ F St. Salida, Colo.

This edition covers Chaffee County and the western portion of Fremont County. In this directory the following towns are included: Buena Vista, Centerville, Garfield, Howard, Nathrop, Maysville, Poncha Springs, Granite, Monarch, Mt. Princeton, and Turret, together with a directory of the rural free delivery boxholders on routes which are pivotal from the Salida, Garfield, and Turret Post Offices.

## SALIDA

### "GEM CITY OF THE ROCKIES"

Salida--the most desirable spot in Colorado is ideally located in a beautiful fertile valley completely surrounded by rugged mountains.

Blessed with a mild and invigorating climate and at an altitude of 7,050 feet, Salida is rapidly becoming the vacation center for thousands of tourists, the number of which rapidly increases each year.

We are fortunate in having four natural hot springs at our disposal: Wellsville Hortense Poncha and Juanita where many people have regained health.

The prodigality with which nature has endowed and adorned Salida and Chaffee County can only be appreciated when one has visited and viewed her scenic attractions. Over hundreds of miles of splendid auto drives and side roads one can find himself, after a few minutes driving midst the gigantic peaks--Harvard Princeton Yale, Shavano, Methodist, and a host of others--along the shores of beautiful lakes and mountain streams wherein lurks the gamest of all fish--the mountain trout.

The mountain passes are the envy of surrounding territories because of the fine roads and unexcelled scenery.

Naturally situated as the hub of six mountain passes and the converging point of four branches of the Denver and Rio Grande Western Railroad, Salida is the heart of a large trade territory.

### Industry

1. Chief among our numerous industries is the railroad, employing about 550 men and giving an estimated salary of \$20,000 each month. We boast of the finest railroad connections in comparison with our population, in the State.

2. Second in importance is our National Lumber and Creosoting Plant for the treatment of railroad ties, telephone poles timbers, and other forms of lumber. Located at the edge of town, employing about 60 men, with a payroll averaging \$6,000 per month it supplies the entire western territory.

3. The Salida Granite Corporation, also The Mount Cross Granite Company have granite finishing plants at Salida; our monumental granite is becoming internationally known because of its exceptionally high qualities which are unsurpassed by any other granite for monumental purposes. Salida Rose Pink granite is fast attaining international prominence as the finest sculptural granite in the world. Some of the finest artistic structures and memorials in the United States are using this granite in preference to all others.

4. The Frantzhurst Rainbow Trout Farm and the Mt. Princeton Trout Farm are rapidly becoming an industry in their own field. Being considered the largest raisers and distributors of mountain trout in the world, it is estimated that 300,000 fish are sold retail each year. Both farms have an estimated value of \$150,000. You are cordially invited to spend some time at both farms. You will consider your visit well worth your while.

5. Mining in this community has come into prominence even more than was expected, especially the Colorado fluorspar. During the last 12 months there has been 6,240 tons of fluorspar sold, valued at around \$40,000. It is considered that Chaffee County has the largest deposits of fluorspar in the world. Many other minerals such as gold and silver and other metals have reached a production of around \$100,000 during the last 12 months.

6. Stock Raising and Dairying go hand in hand in this County. We are the producers of range cattle, sheep and hogs. Our thorough-bred stock is of the finest quality known. It is estimated that this industry amounts to approximately \$99,367 a year.

7. Recently farming in a small way is showing a decided increase. Due to the extent of stock raising, a good deal of grain must be grown. The truck gardening of high altitude vegetables, particularly our famous Iceberg Head Lettuce are of the finest grade known.

Salida is the headquarters for the Cochetopa National Forest, which is being extensively developed. The last figure given of the net acreage is 1,228,860 acres. Throughout this whole area are vast regions of invaluable natural resources, including deposits of gold, silver, lead, and numerous others. Here too, one finds nearly every kind of wild life common to a mountainous region. It is unnecessary to mention the incomparable mountain scenery.

Salida has excellent schools including one High School two grade schools and one parochial school. Salida High School has held the State football championship for the past four years. The teachers are of the finest that can be obtained.

We boast of nine church buildings under Christian leadership, including Baptist, Catholic, Episcopal, Methodist, Presbyterian, Christian, Christian Science, Church of God, and the Nazarene.

The finest Railroad hospital in the State is located in Salida, also the Red Cross Hospital having patients from all over the United States.

The city has excellent mountain water. The scenic attractions of Salida are so beautiful and numerous and varied in their character that a detailed description in this allotted space is impossible. Salida is the gateway to the Cochetopa, Pike and San Isabel National Forests.

Her hotels are commodious, and her tourist camps and resorts are unsurpassed in comfort and excellence.

In the spring months of 1937 there will be established under the auspices of the Senior and Junior Chamber of Commerce an information Bureau and Rest Room for the accommodation of Salida tourists and visitors at which place you are always welcome to secure information.

Buena Vista  
City Directory  
1936-1937

Buena Vista is situated in the valley of the Arkansas River, 235 miles west of Denver and 25 miles northwest of Salida at an elevation of 7954 feet. It has a population of over 900.

The town proper is beautifully located on the Denver and Rio Grande Railroad. Many substantial homes and business houses are located here.

The Colorado State Reformatory is located one mile south of the City.

The Princeton and Buena Vista Hot Springs are located nearby, the waters of which are noted for their healing properties, and many tourists from all parts of the country are to be found here during the summer season. As a health resort it is unsurpassed.

Its chief industries are farming and stock raising.

### Poncha Springs

Located in the very shelter of the Rockies, it is a favorite resort. Population 90, altitude 7,500, incorporated December 16, 1880. Has private electric plant, and excellent schools.

Now a favorite vacationing place for thousands of tourists who visit it annually, Poncha Springs is said to have been the rendezvous of several tribes of Indians in the days before white men came to push the frontiers of America further west. Here, it is said gathered the chiefs of the ruddy--skinned clans, to discuss matters of state and to bask in the sunshine and quaff the waters of this natural retreat.
