HELP! In Case of Accidents.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach and lifting by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils and pressing the "Adam's apple" back (so as to close entrance to stomach) direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DONT GIVE UP! People have been saved after hours of patient, vigorous effort. 8. When breathing begins get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air and quiet.

Burns and Scalds. Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive or linseed oil, plain or mixed with chalk or whiting.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head.

Mad Dog or Snake Bite. Tie Cord tight above the wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife.

Venomous Insects' Stings, etc. Apply weak ammonia, oil, salt water or iodine.

Fainting. Place flat on back: allow fresh air and sprinkle with water.

Electricity. Release from current not touching body or wire with hands, metal or a wet stick. Handle body by its clothing, with rubber gloves and shoes if possible; if not, cover hands with dry woolen cloth and stand on dry boards. Then induce artificial respiration as in case of drowning. Rub limbs and massage body.

ANTIDOTES FOR POISONS.

First. Send for a Physician.
Second. INDUCING VOMITING, by tickling throat with feather or finger, drinking hot water or strong mustard and water. Swallow Sweet Oil or whites of Eggs.
Acids are antidotes for ALKALIES, and vice versa.

SPECIAL POISONS AND ANTIDOTES.

BUSINESS LAW IN DAILY USE.

The following compilation of business law contains the essence of a large amount of legal verbiage:

If a note is lost or stolen, it does not release the maker; he must pay it, if the consideration for which it was given and the amount can be proven.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.

Ignorance of the law excuses no one.

The law compels no one to do impossibilities.

An agreement without consideration is void.

A note made on Sunday is void.

Contracts made on Sundays cannot be enforced.

A note by a minor is void.

A contract made with a minor is void.

A contract made with a lunatic is void.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

It is a fraud to conceal a fraud.

Signatures made with a lead pencil are good in law.

A receipt for money is not always conclusive.

The acts of one partner bind all the rest.

"Value received" is usually written in a note, and should be, but is not necessary. If not written, it is presumed by the law, or may be supplied by proof.

The maker of an "accommodation" bill or note (one for which he has received no consideration, having lent his name or credit for the accommodation of the holder) is not bound to the person accommodated, but is bound to all other parties, precisely as if there was a good consideration.

No consideration is sufficient in law if it be illegal in its nature.

Checks or drafts must be presented for payment without unreasonable delay.

Checks or drafts should be presented during business hours, but in this country, except in the case of banks, the time extends through the day and evening.

If the drawee of a check or draft has changed his residence, the holder must take due or reasonable diligence to find him.

If one who holds a check as payee or otherwise transfers it to another, he has a right to insist that the check be presented that day, or, at the farthest, on the day following.

A note endorsed in blank (the name of the indorser only written) is transferable by delivery, the same as if made out to bearer.

If the time of payment of a note is not inserted, it is held payable on demand.

in this a.m. after
some wood Eastern wood,
for a widow down town
Bert Jacobs here
yesterday after some
Eastern wood
Gibson has been
here awhile yet today
nothing else doing
Cold down a good
zero last night - down

January 1925

10 around zero at this writing about 9 P.M. Down to 10° again. Say this is about the longest streak of cold weather we had for I don't know since when no snow though which helps some down around zero last night. Mrs. Cape came back today and by here to stay. Young Arthur heard up tonight. Bailey took Bea to Poucha tonight.

13 This here said cold weather still holds out. Not so cold today but down around 20° or 21° now. Last night was around zero again. But the wind blew a hurricane which blew some of us away. Cleopatra was over at Adobe Park today. Best food was up after a load of wood found a cow with a young calf away in pasture. Nobody else been here. Bailey was down town yesterday. Said Mrs. Bachman was coming out with Bailey and her.

15 Spring to snow all day and staying to night down to 20°. Bailey and Sterling Jones stayed to Monte Vista to take at some bulls for as far as Otto and came back to Stanley. Joe up this afternoon. David Cape up and

January 1925

family taking close showing. This is a cold day than usual around 37° and some higher. It sure has been cold down to zero last night. Got Cape and family up this afternoon. Bailey and I were up and out Henry while this afternoon. Bailey and Miss butchard and beef. I'll out to a dance last night but Mrs. Cape, Bea, George, Stinson and I. We took care of the kid. Bailey was at Adobe Park yesterday. Common up day with yesterday, taking some things and platyfish etc. Nothing else doing. Quiet this time of year. This winter is a record breaker for cold weather since Christmas down to zero or better every night.

19 Looks like snow all day snowing on mountains not cold for a wonder. Mrs. Otto Burnett and Mrs. Howard Dunn stopped here to borrow a pair pliers to fix car took them about 2 hours to fix it. Rosine Oshers and Red girl stopped to night. Car played out of them they went home with Stinson toward the car down here.

23 Nice day today yesterday was pretty good. Boys hauled a load of wood and came yesterday. Mr. Rogers up to night. Oval Cape and family up this afternoon. Bea came down from Poucha. Mrs. Mescham Mrs. Darrington

February 1925

11 These days are fairly good. Bandura came up and been sawing up pines for wood for quite a pile of it. Commenced sending over at Linn's place this A.M. Had some snow other day (about first winter when we didn't have any snow). Ed Ostrum came to day.

12 Nice day to day. Bureau from (Linn) Stock yards to inspect some machinery. Got a telephone from day from the Stock Yard. Information from Jimmie about the same. George Ope went down last night to buy in a shell at the Stock Yards. Called up about 9 o'clock. Coal came over here. Sailing down town yesterday. Had a few loads of cotton wood 12/13 and 14th Bandura finished sawing wood pines. Commenced 10th. I received some Revenue or Government birds. men were here and spent the evening till about 10 o'clock. Richardson and Dumber by name. But was gone and killed a turkey day before yesterday.

February 1925

18 Fine day to day. Sowed wood back of day broke engine. Had to quit sawing. Capped wood. Shovel, shovel, shovel. Cops come and got a starry heifer then got out of Cleora Stock yards.

22 Washington Birthday and a fine day. Sunday and nothing doing much. Brief down town yesterday. Graded clocks. We had one that didn't run much a graduate as for a piece and looks go but didn't run much. Been setting up there on the shelf for 7 or 8 years. Maybe longer. Got an old up light of day. A man came along who was a wonder and stayed at Cleora's. Finished sawing wood 19th. Sailed up at Sunday 20th. Consulted with regard to Stock Bill and Regulation. Me out to dance with 21st at Paha Progress Club.

23 Fairly good day. Phil Davidson here for dinner. John Matthews here a few minutes. So it a blue bird to day for first time. Parking and George Ope over on Adobe Park yesterday. Saw a coyote.

26 Fairly good day. Hauling manure been hauling for 2 or 3 days. A stock buyer arrived with Hottelmar Lyons here yesterday.
