Street Guide

The numbered streets lie parallel with Arkansas river and run southeasterly and northwesterly, but for convenience they are said to run east and west. The first street above (or south of) the river is Front street, then First, Second, Third, etc, to Eighteenth street which is the south line of the city.

The numbered streets are crossed at right angles by A, B, C, D, E, F, G, H, I, J, K, L, M, N, and O streets, which are said to run north and south, A street being on the east and O street on the west side of the city.

F street is the main business street leading up, or southwardly, from the Denver & Rio Grande Railroad station, and forms the dividing line from which the house numbers run east and west; for example: Mail office, 127 East First; or telephone office, 114 West Second.

House numbers along the lettered streets begin with 100 at First street, 200 at Second, 300 at Third, etc., and below First take the designation, "Lower," as Lower F, etc.
